an exquisite
garden is at
your fingertips

MooDoo™ is an
organic dairy cow manure
perfect for flower beds,
indoor plants, greenhouses,
vegetable gardens,
flower boxes and similar
growing environments.

MooDoo™ Dairy Cow Manure

MooDoo™ is a soil
conditioner and
contains no added
chemical fertilizers.

Why MooDoo™?

■ WHAT IS MooDoo™?

MooDoo™ is an organic dairy cow manure that conditions the soil with organic matter increasing the fertility and moisture retention of the soil. The beauty for growers is that MooDoo™ makes nutrients more available to plants without adding any chemical fertilizers.

■ WHEN SHOULD I USE MooDoo™?

MooDoo™ is great for use in flower beds, indoor plants, greenhouses, vegetable gardens, flower boxes and similar growing environments.

■ USING MooDoo™ IS EASY...

- **Established Lawns:** Spread 1/2" of MooDoo™ on the lawn. Rake and water well. One 3/4 cu.ft. bag covers about 25 sq.ft.
- **New Lawns:** Cover surface with 1/2" of MooDoo™. Incorporate the compost into a well prepared area. Rake, water, then sow. One 3/4 cu.ft. bag covers about 25 sq.ft.
- **Trees, Shrubs and Evergreens:** Dig holes slightly deeper and wider than the rootball. Mix 1" - 2" of MooDoo™ into the soil at the bottom of the hole.
- **Established Roses, Shrubs, Trees, Flowers, Herbs and Vegetables:** For use along rows, spread a 1" band of MooDoo™ all around. Rake into the top soil. Water well.
- **Container Plants - Indoors and Out:** Add MooDoo™ to Mark's Magic Soil at the rate of 1 part MooDoo™ to every 5 parts of potting soil. (About 1/2 cup to each quart of potting soil).
- **As a growth supplement:** Top with MooDoo™ in the spring or summer. Add a heaping tablespoon to each 5" pot or 1 cup to each gallon. Mix MooDoo™ into the surface soil. Water well.
