all-natural soil product  
screened for uniform size.

it's just  
real dirt

This loamy clay/sand  
mixture is an excellent  
additive for all-purpose  
lawn & garden use.

# Why buy dirt?

## ■ WHAT IS REAL DIRT?

Real Dirt is an all-natural product screened for uniform size containing the right amount of nutrients and organic matter to help your plants reach their full potential. It is an excellent additive for all-purpose lawn and garden use.

## ■ WHEN SHOULD I USE REAL DIRT?

Recommended for flower and vegetable gardens or as a top dress to new or renovated lawns where you are lacking top soil crucial to any landscape. If you want your flower garden to have a raised bed, use Real Dirt as filler. Unlike mulch or compost which settles over time, Real Dirt serves as a compact base for flower beds that will last for years. And since Real Dirt is a local soil product, it naturally bonds with the soil you already have in your yard.

## ■ HOW DO I USE REAL DIRT?

Real Dirt is a loamy clay/sand mixture. It can be used straight from the bag or blended with other soil amendments such as Native Compost Soil Conditioner, MooDoo™ Dairy Cow Manure, Cotton Blossom Compost, or Mark's Magic Soil for ultimate growth and plant health.

## ■ THIS BAG WILL COVER...

At 1" deep one 1/2 cu.ft. bag covers about 6 sq.ft.
